Posters for the presentation can be printed by the Dean’s Office. A completed PowerPoint slide or pdf will need to be emailed to Sue MacDonald at smmacdonald@ucsd.edu by April 1, 2010.

A poster is made up a PowerPoint slide describing your research, including background, approach, results (final or preliminary) and conclusions.

**Poster Instructions**

1. Your poster should be 3’ x 4’ in landscape format.
2. Place poster title and author(s) name at the top of your poster, with printed characters at least 1” high. The title should be more or less the same as the title you registered with your abstract when you registered to participate.
3. The poster should have large, legible text and figures. Describe results in a manner that would be clear to a reader, even in the author’s absence. It should be possible to read your poster from 3 feet away.
4. We recommend that you print your poster on coated heavy weight paper. Contact Sue MacDonald smmacdonald@ucsd.edu about having your poster printed through the Dean’s office.

**Special AV/Facility Requirements:** We encourage students to bring along prototypes or laptop demos. However, these demos must fit within the space provided (approx. 2’ x 4’) and students are responsible for their own equipment (i.e. no outlets provided, so laptops should run off battery power).

Please note that all posters must be 3 x 4 posters or (Height= 36" Width= 48")
Click here for an example of a completed poster PowerPoint slide.

Please use this format for the poster:

**Title of Research**
Name of student(s), major, year
Name of advisor(s), Department

**Motivations/background**
xxx xxx xxxxxx xxx xxxxxxxx xxxxxxx xxx xx x xxx xxx

**Approach**
xxx x xxxxx xxx xxx xxxxxxxxxx xx x xxxxx xxxxx

Block diagram

**Results**

Photos
Charts
Graphs

**Conclusions**
