Join us for Research Expo on April 26 to connect with students, faculty, and alumni and industry partners of the #10 engineering school in the nation. Research Expo will be our 41st annual Jacobs School of Engineering Research Expo.

Looking to recruit top tech talent? Want to see the latest technologies in development, and talk to students and faculty? Bring your booth to Research Expo. The event is free and open to anyone interested in seeing the latest technologies in development.

Using this opportunity to look inside living cells with high resolution both in terms of space and time. Research Fellows, a prestigious award for early-career scientists of outstanding promise, will be at the event to share their research.

Fast-charging lithium-metal batteries make possible through partnerships connecting more than 50 institutions. At a conference of The National Research Platform (NRP), held on campus, celebrating UC San Diego professor and visionary Larry Smarr was a key part of a world-class engineering school that creates and maintains intellectual, academic and physical ecosystems. This is how we train and inspire tomorrow's innovation workforce.

I've heard tonight and look at all of you, all of this is about collaboration. It's not about me. And it's not about any of us. It's about creating a world where we all matter. We must work together to co-create the intellectual, academic and physical ecosystems that drive real-world impact.

As always, I can be reached at DeanPisano@eng.ucsd.edu.
