

2024-2027

Strategic Goals

MISSION

Cultivate and facilitate a culture of inclusive participation, engaging every engineering student toward achieving success, building community, and advancing equity from admission through to graduation.

VISION

Every engineering student thrives personally, academically, and professionally.

VALUES

Inclusion. Diversity. Excellence. Achievement.

GOALS:

- **Enhance student academic success** and progression towards graduation through innovative, research-informed, culturally competent, and student-centered practices.
- **Empower students** to achieve professional goals and cultivate their individualized engineering identity by fostering career and research readiness.
- **Establish a nexus community within the Jacobs School of Engineering** supported by robust infrastructure and resources, serving as an inclusive and welcoming environment to meet students' individualized and diverse needs.
